Hopewell VIEWS SIMMENTALS

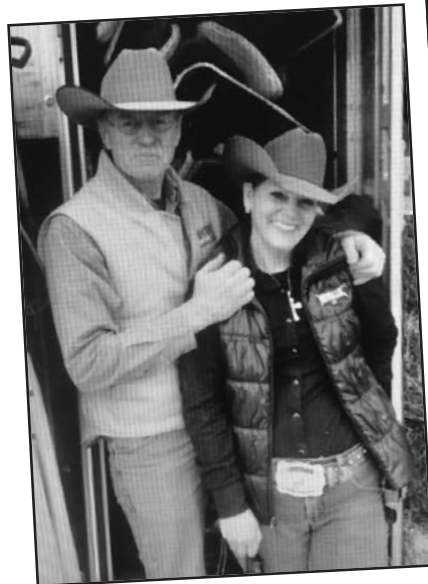

It is our pleasure to welcome everyone to our dispersal sale! It has been an interesting year, but with God's grace, we have persevered. You, the cattlemen and women of our industry, are the most tenacious and hard-working Americans that provide the world with their food. You, as producers, have a deep love and commitment to your cattle, while striving for top dollar on the market. Because of that love of cattle, it has been a very difficult decision for us to have this dispersal. We have worked to build top genetics without sacrificing soundness, performance and efficiency. Docile cattle was always a top priority for us, which carried through to our bulls, and throughout the herd.

As we look forward to the next chapter of our life, we want to thank all our bull and heifer customers for their repeated business through the years. We sincerely appreciate Larry Martin for taking charge and putting this sale together in a VERY short time frame. Outstanding Larry! We also want to thank everyone helping behind the scenes, from hauling, to prepping, to promoting our cattle. This would not be possible without you!

If you need any assistance or have any questions about our offering, please call any one of us and we will be glad to help. Again, welcome and thank you for your consideration of our cattle. May God bless you all!

Rick and Mary Wombles
Hopewell Views Simmentals

P.S. If you have questions in the future, you'll find us in the duck blind!

Welcome to Rick and Mary's Mature Cowherd Dispersal. Having sold the farm, they have chosen the quickest way to sell a good herd of cattle in their working condition.

Rick has always purchased and bred quality cattle with updated genetics and calving ease EPD's. His herd sires have been the best that money can buy. This dispersal has been put together in less than 40 days.

Any corrections will be made from auction block on sale day. If you need money-making cows or recips, this will be the place to be on January 16th.

Larry D. Martin

HWV Dividend's Renowned

Service Sire

This group of replacement heifers were from the heart of Hopewell Views future cow herd. Rick synchronized this group of heifers on May 6th, 2020, then turned out HWV Dividend's Renowned ASA #3825929, noted for super balanced EPD's with emphasis on calving ease and a 138.7 API. Heifers were preg-checked 11-23-20 and found to be 5-6 months pregnant, with projected calving dates starting mid-February to the first couple of weeks in March. Rick did not plan to sell this group of heifers!
