Live and On-line

2024 WELCOME

Cattlemen,

Welcome to our annual Cattlemen's Choice Grasstime Sale, featuring Angus and Simmental Bulls, high quality, service-age, semen checked and ready to turn out with your cows.

If you need young, quality Angus, Simmy and Hereford cow/calf pairs, plan to attend. I feel this group of pairs is the very best we have ever offered.

The bred cows and Fall calving heifers will appeal to breeders with fall calving programs.

If you need Open Replacement Heifers we will offer you Angus and Simmental Heifers with lots of quality, featuring an outstanding open Simmy – granddaughter of the Elite Donor, JF Black Satin, known as "Boots."

The Genetic Lots features will sell Pregnancies by Donors HF Serena, JF Josie, RWA Gizelle, and Embryo Packages with sexed heifer eggs.

If you need real "Good" cattle, make plans to attend or go to DVAuction.

Wow!! That is all I can say about this pair folks!! You are probably going to ask: What was this guy thinking – putting an embryo in a cow like this? Valid question, but the answer is she hit the window for a fresh embryo. Now, speaking of embryos...the solid red beautiful HEIFER calf at her side is out of my RWA Gizelle-ET donor cow sired by Profit. Her sire is the impeccable SAM! Larry and Greg wanted me to bring something special and I feel this pair is just that! ET Heifer calf was born on January 2, 2024. To sweeten the pot, she was AI bred on 3-18-24 to the super hot Reckoning 711F bull (I'm a little biased here too as Reckoning's dam came from our farm). Marcus and I really struggled putting this pair up for sale as we love them. Our loss is your gain here! Special Note: 3 full sib IVF Heifer embryos to this heifer calf are also part of the same as Lot 22-B.

3-1-IN Bred: Bred 3-18-24 to Reckoning 711F #3553633. To sweeten the pot, bred to super hot bull, dam came from our farm.

This 5-year cow was the first calf by the class winning female at the 2018 Jr Nationals and is now an elite donor for our program. Churchill Sensation 028X has paved his way as not only an elite calving ease sire, but a big time maternal producer as well. The 028X daughters have great udders and are hard working momma cows. The Rockstar cow family has made their way to becoming one of the 5 mainstay cow families at Swigart Herefords. We are down sizing and are selling anything calved in March or after so the buyer will be gaining big rewards in their maternal package.

Here is a 3-year-old cow by the 7930 Rockstar donor cow. 1729 is sired by a phenotype standout bull called Twelve O'Clock which we acquired from the Crane Herefords program. He is backed by the Twenty Twelve bull from the NJW program in Montana and is out of the Wishful No 311 donor at Crane's. This is the cow's 2nd calf and her first heifer which we retained in our replacement pen. Beautiful udder on this young cow with a very complete heifer calf at side. Quality maternal genetics in this pair being offered.

Moon is a beautiful young cow that could be bred many ways to make fancy show steers or brood heifer prospects. She stems back to our great "grandma" cow which was a Meyer 734 daughter. This year we decided to breed her to the great "One Eyed Jack" and she laid down and had a fancy brockle face heifer calf. Look for this pair on sale day!

JF JOSIE 502R EMBRYO PACKAGE – ASA #2291960

- Red genetics are in demand, and we are proud to offer one package of three (3) embryos out of our lead red donor Josie. Josie was an absolute specimen to see in person. She was as complete of an individual as you can find. Solid cherry red, massive middled, and heavy boned. Josie had been consistent, and most importantly profitable. She exported well over \$40K worth of embryos in her lifetime. She managed to withstand the test of time. Fertility is built in, as she was averaging 21 conventional embryos per flush at the age of 15. Josie and Broker are both deceased now so this will be one of the last opportunities to purchase these genetics.

JOSIE X MR HOC BROKER – ASA #2531081

Guaranteeing 1 60-day pregnancy if the work is performed by a certified embryologist. Embryos will be available on sale day.
